

The background of the entire page is a dramatic, low-key photograph of a military scene at night. In the foreground, several stacks of grey and black PELI military cases are arranged. Some cases are open, revealing their interiors. In the background, a military vehicle with its headlights on is partially visible, and a soldier in full combat gear, including a helmet and night vision device, is standing to the right. The ground is dark and uneven, possibly sand or dirt. The overall atmosphere is serious and tactical.

PELI & THE MILITARY: PARTNERS IN PERFORMANCE

**NATO-OTAN
TRUSTED
PRODUCTS**

For over half a century, Peli engineers have proudly developed custom solutions for the transport and packaging needs of NATO. Our innovative products enable sensitive equipment to travel through hostile environments and arrive operational. Many of our models have been tested on the battlefield as well as in combat situations. By developing custom solutions, testing new materials and continuously improving designs based on user feedback, we have been able to build this robust line of cases that proudly live up to the harsh demands of the military. We look forward to solving your toughest shipping issues and seriously encourage your requests for specific-need cases. After all, on the battlefield, best-in-class performance matters most.

RACK CASES

Peli-Hardigg™ Rackmount Cases are the pinnacle for military equipment protection. Featuring rugged rotomoulded shells, they endure relentless abuse drop after drop in any environment, remaining damage-free. These 19-inch high-impact polyethylene cases boast built-in frames for mounting electronic devices, with shock mounts isolating devices from case walls. Ensuring absorption of shocks and vibrations, they safeguard critical equipment in the toughest conditions.

G FRAGILITY RATING:

The fragility of an item is normally expressed in “G” units. G units are a measure of the force exerted on bodies by the earth’s gravitational pull. Products with a larger g-force rating require less protection from shock and vibration.

CLASSIFICATION	FRAGILITY (shock and vibration levels)	
EXTREMELY SENSITIVE Inertial Navigation Equipment (Gyroscopes)	12 - 18 G's	FRAGILE ↑
VERY DELICATE Electro-Optical (101-152 mm), Precision Test Equipment	18 - 25 G's	
FRAGILE General Electro-Mechanical, Medical and Biological Diagnostic, Tower computers, Colour TV Cameras, High End Rack Mount Electronics, Printers	25 - 50 G's	
MODERATELY FRAGILE Solid-State Circuit Electronics, Radar and Microwave, Antennas, Audio-Visual Projectors, Aircraft Engines, General Rack Mount Electronics	50 - 80 G's	
RUGGED PC Boards, PC Monitors, Refrigerators, Microwave Ovens, Control & Metering Valves, Cameras, Emergency Rescue Gear	80 - 120 G's	
VERY RUGGED Most Small Appliances, Peli Flashlights, Tools, Guns	120 G's and Up	↓ RUGGED
CELL PHONE	300 G's

EURO PALLET CONTAINERS (ISP2 CASES)

ISP2 Cases from Peli virtually eliminate load movement with a unique Inter-Stacking Pattern (ISP). The system is compatible across 64 different case sizes, from 0.018 to 0.576 cubic metres of storage. All ISP2 Cases are configurable with an optional pressure relief valve, a document holder, skid runners, a humidity indicator or lifting rings, to name a few.

STANDARD PALLET CONFIGURATION EXAMPLES

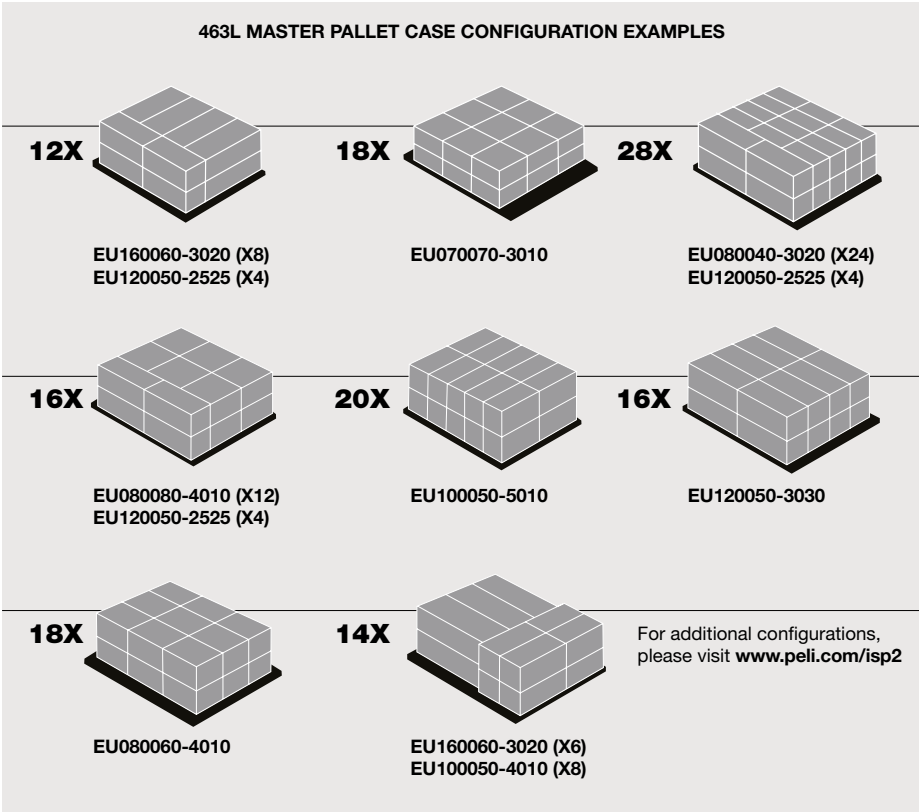

EURO PALLET
1200mm x 800mm

Designed for Euro Pallet standard 1200mm x 800mm, the ISP2 Case system can be cross-stacked to form a solid load. The ISP2 Case metric system allows all 64 sizes to be mixed on an Euro Pallet with no wasted space. The use of columnar ribs in the case walls can support a much taller pallet stack than corrugated boxes. This takes advantage of overhead cargo space that would otherwise be wasted. Handles on all ISP2 Cases will enhance the speed of deployment over conventional containers.

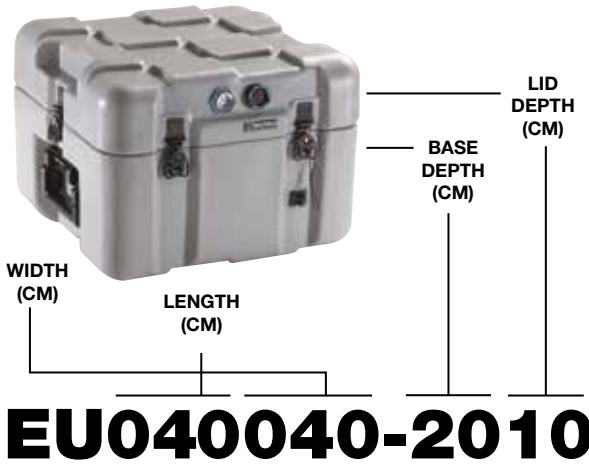

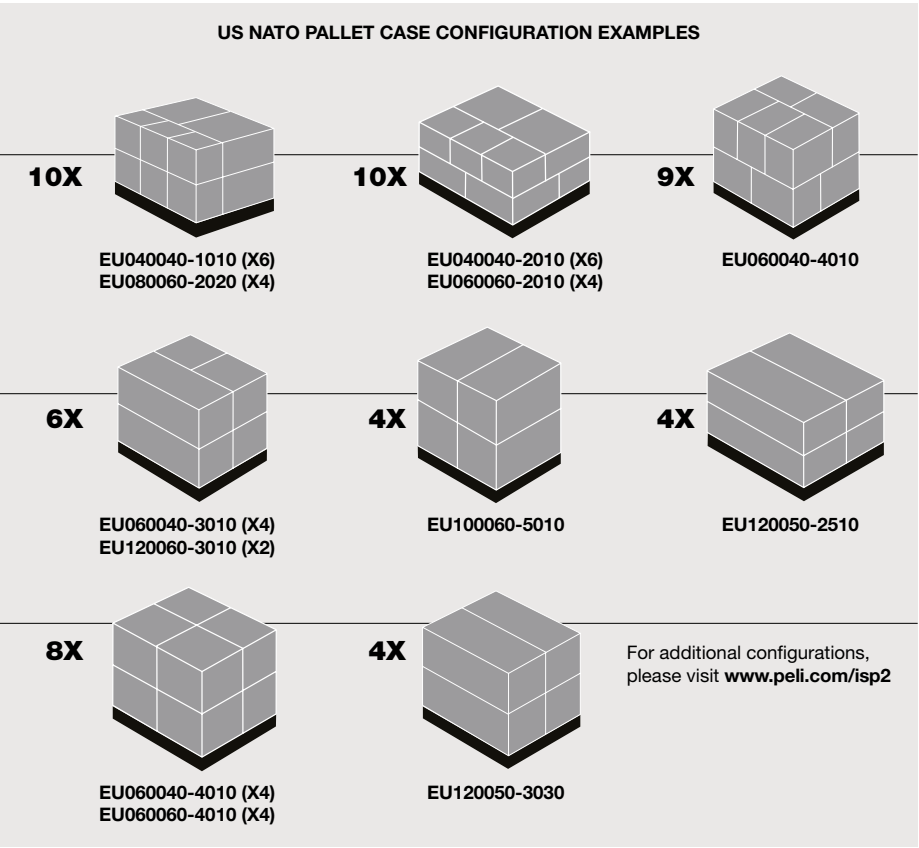

463L master PALLET
2640mm x 2130mm

Military logistics have long relied on the 463L pallet to move large loads for multiple operations. However, unorganised and loose loads can threaten operations such as cargo airdrops. The Inter-Stacking Pattern builds a tight, stable load with minimal strapping or netting. Upper level cases, when cross-tied to the layer below, can effectively control shifting of the entire load.

NATO PALLET
1200mm x 1000mm

Designed for the NATO Pallet standard size 1200mm x 1000mm, the ISP2 Case system can be cross-stacked to form a solid load. The use of columnar ribs in the case walls can support a much taller pallet stack than corrugated boxes. This takes advantage of overhead cargo space that would otherwise be wasted. Handles on all ISP2 Cases will enhance the speed of deployment over conventional containers.

Standard Colours of ISP2							
Gray – 133 Fed Std# 26270	Tan – 250 Fed Std# 20372	Blue – 135(lt) Pantone# 292U	White – 132 Fed Std# 27925	Yellow – 136 Pantone# 012U	Green – 138 (forest) Fed Std# 24052	Orange – 134 Fed Std# 12197	
Yellow – 131 Fed Std# 23538	Maroon – 197 Pantone# 202U	Blue – 101(dk) Fed Std# 25052	Black – 032 Fed Std# 27040	Red – 130 Fed Std# 21105	Olive Drab – 137 Fed Std# 34096	Purple – 129 Pantone# 245U	

Note: Case colours/options may differ slightly from printed versions.

OFF-THE-SHELF TRANSPORT CASES

Engineered with military-grade durability and combat-tested resilience, Peli's off-the-shelf transport cases offer proven protection for mission-critical gear. Simultaneously, they provide a do-it-yourself approach, ensuring versatility for users to tailor the interior according to their preferences.

WHEELED CASE

ADVANCED CASE SOLUTIONS

Custom cases for large military applications

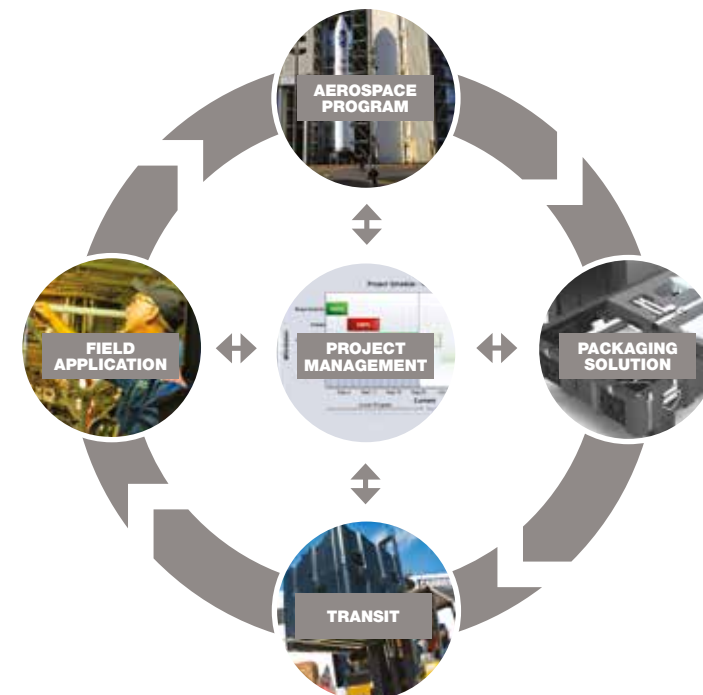

Protect mission-critical equipment with bespoke case solutions engineered for the most extreme military environments. Peli custom cases combine precision cushioning, shock mounts, and metal cradles to deliver unmatched protection. Designed to meet strict MIL-Spec standards, each solution is tailored to your operational needs—from deployment to combat.

STATE-OF-THE-ART INTERIOR PROTECTION

Our internal teams have long-term experience in designing everything from simple foam cushions to extremely complex metal structures for use in dramatically diverse shipment, storage, and use conditions – including military deployments and combat situations. From deck-mounted equipment to bezel-mounted electronics with integrated exhaust fans to cases with multiple access points and interface portals or extended-profile customisations – no case requirement is beyond our capabilities.

In extreme temperatures, undergoing radical oscillation or direct impact, surrounded by water, chemicals or fine dust particulates – your product is protected inside our Advanced Case Solution. We control every stage of the process to ensure integrated performance of your part and our protective solution, from interior stabilisation to exterior hardware.

Investing in an Advanced Case Solution ensures your Mission Critical operations will not fail.

Peli's integrated process flow anticipates your unique protective packaging requirement.

MORE INFO

FOR INQUIRIES,
please contact: military@peli.com

Peli's case accessories offer tailored solutions for military professionals, ensuring optimal organisation and security. From lid organisers and dividers to desiccant packs and mobility kits, these add-ons maximise efficiency on the battlefield. Built for durability and mission readiness, they keep your critical gear secure, accessible, and protected in any environment.

ACCESSORIES

OFF-THE-SHELF CASE

ACCESSORIES

A WIDE RANGE OF ACCESSORIES IS AVAILABLE FOR PELI™ STANDARD CASES, DESIGNED TO SECURELY NEST AND PROTECT YOUR EQUIPMENT DURING TRANSPORT.

PLEASE NOTE THAT NOT ALL ACCESSORIES ARE COMPATIBLE WITH EVERY CASE MODEL

For quotations and inquiries, please contact military@peli.com

EZ-CLICK™ MOLLE PANELS

Efficiently organise lifesaving equipment inside the lid of the case. This is the first lid organiser of its kind that can quickly be released and swapped out without tools. Engineered to fit in the 1510, 1560 and 1535 Peli cases Peli cases, the panel is compatible with user supplied MOLLE pouches and Velcro™ brand straps.

CAR MOUNTING BRACKETS

Securely attach your trusted Peli cases to vehicles for ultimate on-the-go durability with Peli Legacy Mounting Brackets. Engineered for stability and ease, allowing you to access your gear without removing the case from the bracket.

PICK N PLUCK™ FOAM

An easy, do-it-yourself system for the interior of the case. Layers of foam are pre-scored in 1,27 cm or 2,54 cm cubes. Simply lay your equipment on the foam, tape or chalk to mark the foam, and pluck away. Always allow at least 2,5 cm of foam between your equipment and the case wall.

PANEL FRAMES

Many Peli cases can be adapted for use with electronic interface panels by using a Panel Frame. Pre-drilled holes and stainless steel screws make fabricating a custom case a fast and accurate proposition.

A polymer o-ring seals the panel so the base of the case remains watertight, even with the lid open.
